MUHAMMAD TALHA BASIT

Full Stack Developer

I am a Full-Stack Web and React Native Developer with 2 years of hands-on experience. I specialize in crafting responsive web interfaces and cross-platform mobile applications. I bring a strong command of front-end technologies like React.js and Tailwind CSS, combined with back-end expertise in Node.js, Express.js, MySQL, MongoDB, and Firebase. From building scalable RESTful APIs to designing intuitive UIs, I focus on delivering performance-driven, user-centered solutions. My development approach emphasizes clean, modular code and aligns with modern best practices to ensure scalability, maintainability, and a seamless user experience across devices. **I'm also expanding my skillset by actively working on Shopify app development.**

EXPERIENCE

Full Stack Developer, Coderzpark
July 2024 - Present

- Developing scalable full-stack web and mobile applications using React.js, React Native, Node.js, and Express.js.
- Building secure RESTful APIs and integrating MySQL & MongoDB for structured/unstructured data.
- Collaborating in agile sprints, participating in code reviews, and ensuring clean, maintainable code.
- Working closely with designers to deliver responsive, user-friendly interfaces.

FullStack Developer (Internship + Parttime), CoderzPark
July 2024 - Present

- Practiced full-stack web development using React.js, Tailwind CSS, Node.js, Express.js, and MySQL.
- Built and tested RESTful APIs with Node.js and Express.js.
- Expanded into React Native by developing multiple mobile app projects.
- Created reusable components for scalable, maintainable, user-focused solutions.

Front-end Web Development (Internship), Webscare
August 2023- January 2024

- Developed responsive websites using HTML, CSS, JavaScript, and React.js.
- Implemented clean, reusable UI components.
- Collaborated with designers for pixel-perfect layouts.
- Optimized performance for fast, responsive websites.
